

CHALLENGE 17

Toy Audit

Go through all your toys and games this weekend and make several piles. Make one pile for toys that need to be repaired and then work on fixing them. Make another pile for toys and games that you can donate, but make sure they're in good condition! If your toy is completely beyond repair, you might need to throw it away. See if there are any parts that can be recycled or used to fix your other toys. Try to avoid collecting poorly-made toys like the free ones given out at events or with meals.

Also consider making a pile that you can swap with your friends. Remember the clothes swap from page 33? You can have the same sort of party with toys, board games, video games, you name it!

Remember to check with an adult before you start swapping.
