FICTION:

THE FAIR BOTANISTS by Sara Sheridan (p.2)

A bewitching and immersive story set in Edinburgh centring around the highly sought after bloom, the Agave Americana plant, which has the city stirring with excitement and secrets ready to unfold...we've teamed up with the Edinburgh Botanical Gardens, and can't wait for readers to fall in love with these characters and the city.

SEVENTEEN by John Brownlow (p.16)

An electrifying thriller about hitman, Seventeen, who is assigned to kill his predecessor...until suddenly the hunter becomes the hunted. H&S pre-empted, with auctions in Germany, Netherlands and offers elsewhere.

HER PERFECT TWIN by Sarah Bonner (p.17)

This debut is the most suspenseful, pacy thriller we've read in a long time, about two estranged twin sisters, one of whom must assume the identity of the other when she 'accidentally' murders her twin...Hodder Studio bought this at pre-empt with Grand Central and Goldmann on board too.

NON-FICTION:

BURN by Ben Short (p.24)

ALEXANDRIA by Dr Islam Issa (p.25)

Fascinating history of the city, Alexandria, from pre-Homeric times to the present day. Alexandria was the crucible of cultural exchange between East and West for millennia. It was the undisputed global capital of knowledge that constantly pressed humanity into its next era with key figures who helped shape its identity and fortunes. Lead title for Sceptre in 2023.

STRONG FEMALE LEAD by Arwa Mahdawi (p.28)

A response to the woeful inadequacy of male leadership, and an investigation into the qualities demonstrated by the female leaders showing us how it's done. Including original research and interviews with Madeleine Albright, Mary Robinson, Alicia Garza, and many others.

She sees much more than you think . . .

Five years ago, Laurel Lovejoy had it all. The high-powered city job, the loving husband, the perfect daughter. Now, she is forty and alone, and working for a courier service. But she has discovered that being a delivery driver comes with a superpower: it makes her invisible. People accept her presence without question. They go about their lives, unaware of just how much she sees - how much she knows.

Laurel is particularly fascinated by the residents of Paradise Found, an exclusive gated cul-de-sac. She sometimes even finds her way there when she's not working, using her days off to soak up as much information about the inhabitants and their lives as she can. Everyone needs a hobby.

Then one day Laurel sees something in one of the houses - something that blows her whole world apart, and will have devastating consequences for everyone involved . . .

BURN

BEN SHORT

Fire does not destroy, it transmutes; flames burn, but they can also craft. Leaving my old life and entering the woods induced a similar act of alchemy in me. This is the story of that transformation.

BURN is a frank and inspiring story about letting go of what we're told to want, about risking everything to find happiness and about craft and nature restoring life. It's part *H is for Hawk* nature writing (of the elemental, harsh kind), and part *The Salt Path* or *The Outrun*, a memoir about finding solace in the outdoors.

ALEXANDRIA

DR ISLAM ISSA

Sceptre
September 2023
Editor: Juliet Brooke
Length: 416
Full delivery: June 2022

This is the story of a small fishing village that rapidly became the most coveted spot in the world.

ALEXANDRIA is the first history of the city from pre-Homeric times to the present day. Alexandria was the crucible of cultural exchange between East and West for millennia. It was the undisputed global capital of knowledge that constantly pressed humanity into its next era. But it also witnessed natural disasters, plagues, crusades and violence.

Major empires fought over Alexandria (including the Greeks, Ottomans, French, and British) and key figures shaped the city (Alexander the Great, Cleopatra, Saint Mark the Evangelist, Admiral Nelson, Napoleon Bonaparte, Aristotle and many others) each putting their own stamp on its identity and fortunes. This mystical city forces us to reconsider the links between East and West, religion and science, tradition and renovation, myth and reality, the classical and the modern, and ultimately, past and present.

About the Author:

Dr Islam Issa is a multi-award-winning historian at Birmingham City University. He presented the TV documentary *Cleopatra and Me: In Search of a Lost Queen* (BBC Four) and various programmes on BBC Radio 3. He curated three high-profile public exhibitions, has published extensively in his field, and has written for such outlets as *The Guardian*, *New Statesman*, and *Times Literary Supplement*. *Alexandria* will be his first book for the trade.

'An extraordinary and compelling book of reckonings, a wonderful melding of the personal and the political, the family and the historical.' PHILIPPE SANDS

'An extraordinary, cadenced and moving story' EDMUND DE WAAL

Kurt Schindler was an impossible man. His daughter Meriel spent her adult life trying to keep him at bay. But when Meriel came to her father's house to clear out his belongings after his death, she began to discover the truth about her notorious and extraordinary family: Oscar Schindler, Alma Schindler, the composer wife of Gustav Mahler and Walter Gropius, Hitler's Jewish doctor - Dr Bloch, and Franz Kafka. Finally, and perhaps most poignantly of all, her father's actual whereabouts on Kristallnacht when he was said to have witnessed the Nazis beating his father half to death and ransacking the family home.

Through the story of the Café Schindler and the threads that spool out from it, this moving book weaves together memoir, family history and an untold story of the Jews of the Austro-Hungarian Empire. It explores the restorative power of writing, and offers readers a profound reflection on memory, truth, trauma and the importance of cake.

About the Author:

Meriel Schindler spent the first fifteen years of her life growing up in central London before suddenly being moved to a convent school in provincial Austria. Five years later she moved back to the UK to study French and German at university and is now an employment lawyer, partner and head of a team at Withers LLP, a law firm.

Deepfake technology can create video evidence of just about anything: Natalie Portman in an orgy; Donald Trump declaring nuclear war; the United States winning the World Cup. The only limit is the imagination. In a time where fake news and disinformation is becoming harder and harder to identify, it is more essential than ever to understand the dark origins of deepfakes.

Journalist Michael Grothaus goes down the rabbit hole as he interviews the morally dubious, yet incredibly talented creators of this content. This book will open a window into the communities transforming reality; from incels to hackers in the very underbelly of the internet.

Challenging, enlightening and terrifying, this book will ask the questions other people are too scared to: what happens when you can no longer believe your own eyes.

Great cities are complex, chaotic and colossal. These are cities that dominate the world stage and define eras; where ideas flourish, revolutions are born and history is made.

Through 10 unique cities, from the founding of ancient capitals to buzzing modern metropolises, Paul Strathern explores how urban centres lead civilisation forward, enjoying a moment of glory before passing on the baton.

We journey back to discover Babylonian mathematics, Athenian theatre and intellectual debate, and Roman construction that has lasted millenia. We see Constantinople evolve into Istanbul, revolutionary sparks fly in Enlightenment Paris, and the railways, canals and ships that built Imperial Britain. In Moscow men build spaceships while other men starve, New York's skyscrapers rise up to a soundtrack of jazz, Mumbai becomes home to immense wealth and poverty, and Beijing's economic transformation leads the way.

Each city has its own distinct personality, and CENTRES OF CIVILISATION brings their rich and diverse histories to life, reminding us of the foundations we have built on and how our futures will be shaped.

About the Author:

Paul Strathern writes books about science, history, philosophy and literature, including two series, *Philosophers in 90 Minutes* and *The Big Idea: Scientists Who Changed the World*, and the Sunday Times bestseller *The Medici: Godfathers of the Renaissance*. Introducing your new psychological superpower: agility.

The world is changing faster than ever, and it's easy to feel left behind. The happiest and most successful people on the planet are able to adapt to these changes. They all have one thing in common: mental agility. Luckily all of us can hone this valuable skill. We can learn to change our habits, adapt to situations, flex our emotions and thrive. We just need to know how.

Drawing on 25 years of scientific research, as well as working with the world's top athletes and businesspeople, Oxford psychologist Elaine Fox has developed a framework for a supercharged form of agility she calls Switchcraft. And using stories, case studies and interactive exercises, Fox shows us how to perfect it in three simple steps: **1) Understand yourself, 2) Understand the situation, and 3) Adapt.**

SWITCHCRAFT shows us how to be flexible in the ways we think, feel and behave. It helps us solve problems, make better decisions, and escape the mental ruts that can cause anxiety. Start with one change: SWITCHCRAFT.

About the Author:

Elaine Fox is Professor of Psychology and Affective Neuroscience at Oxford University where her lab group, the Oxford Centre for Emotion and Affective Neuroscience, is world-leading in the quest to understand the roots of mental health. In September 2019, Professor Fox was appointed to a highly prestigious role by the UK Government's Department of Research and Innovation (UKRI) to lead a national strategy to enhance the profile, impact and quality of mental health research in the UK.

THE FUTURE OF DINOSAURS

DAVID HONE

Hodder & Stoughton

Publication: February 2022

Editor: Huw Armstrong

Length: 288

Palaeontologist Dr David Hone tells us everything we know about dinosaurs - and everything we don't yet know.

We have made more discoveries about dinosaurs in the last 20 years than we have in the previous 200, and there is a wealth of cutting edge research that has never been written about before, from their skin (some had feathers) to their extinction (the myth of the meteorite), much of which is David's own personal research and discovery. How does it feel to discover a new dinosaur? David Hone can tell you - he has personally discovered 12 new species himself.

And there is much still to discover. What colour were dinosaurs? Did they mate for life? How did they rear their young? Did they migrate in winter? How did they communicate? Did they eat fish? Just what are the T-Rex's tiny arms actually for? In *THE FUTURE OF DINOSAURS* Dr David Hone shows us the extraordinary advances in palaeontological research that are starting to fill in these gaps, and sets out the future of dinosaurs for the next generation.

RESCUE

IAN GOLDIN

Sceptre

Publication: May 2021

Editor: Juliet Brooke

Length: 160

An optimistic vision of the future after Covid-19 by a leading professor of globalisation at the University of Oxford.

We are at a crossroads. The wrecking-ball of Covid-19 has destroyed global norms. Many think that after the devastation there will be a bounce back. To Ian Goldin, Professor of Development and Globalisation at the University of Oxford, this is a retrograde notion.

He believes that this crisis can create opportunities for change, just as the Second World War forged the ideas behind the Beveridge Report. Published in 1942, it was revolutionary and laid the foundations for the welfare state alongside a host of other social and economic reforms, changing the world for the better.

Ian Goldin tackles the challenges and opportunities posed by the pandemic, ranging from globalisation to the future of jobs, income inequality and geopolitics, the climate crisis and the modern city. It is a fresh, bold call for an optimistic future and one we all have the power to create.

About the Author:

Ian Goldin is Professor of Development and Globalisation at the University of Oxford. He was economic advisor to President Mandela, Vice President of the World Bank and the founding Director of the Oxford Martin School, which brings together over 300 Oxford faculty members to address global challenges. He is a regular keynote speaker on Ted, Google, Zeitgeist and at Davos.

REBEL

FAITH MORGAN

Hodder & Stoughton

Publication: June 2021

Editor: Briony Gowlett

Length: 368

Faith grew up in the Children of God cult (known latterly as The Family). Faith travelled the world as a child with the Children of God - to Argentina, Mexico, Spain, India and Greece. Her story features a supporting cast of multiple siblings, eccentric parents and countless transient friends, spiritual leaders, and abusers. And the story of her life in the cult concludes in London, where she is isolated from her family and used as a domestic slave. Faith shares her post-escape experiences of re-entering education for the first time since she was ten, her self-directed deprogramming, and her quest for justice through campaigning and confrontation.

In REBEL, Faith writes about how we need to look and to see what is hiding in plain sight. But more than this, we all need to be wiser to our own vulnerability as adults, our credulity and susceptibility to misinformation and our readiness to take the bait, when it looks like the answer.

About the Author:

Faith Morgan was born in 1973 to an Argentinian father and English mother. The third child of seven, she was the first of her siblings to be born into the cult The Children of God, later known as The Family of Love. In early 1991, aged 19, she found the courage to escape and now lives in the Home Counties with her family. Faith Morgan is a pseudonym.

The son of a Danish nurse and Polish musician, Peter Schmeichel is an undisputed giant of the global game. He was a serial winner with Manchester United and Denmark, and he rivals Gordon Banks and Lev Yashin for the title of the greatest goalkeeper of all time. Alex Ferguson labelled him 'bargain of the century' when he reflected on the £505,000 Manchester United paid to sign him in 1991.
