# The FUTURE of the UNIVERSE

Witness the explosive and colourful future of our cosmos. Travel the forward timeline that includes a shiny new ring around Mars, Earth's axis flip and a dramatic galaxy crash!

- Published in association with Royal Observatory Greenwich
- Second in a duology of definitive astronomy titles, following on from *Wonders of the Night Sky*
- By the international award-winning author of *Planetarium*
- Mesmerising illustrations by Jan Bielecki, whose previous works include Steven and Lucy Hawking's *Unlocking the Universe*

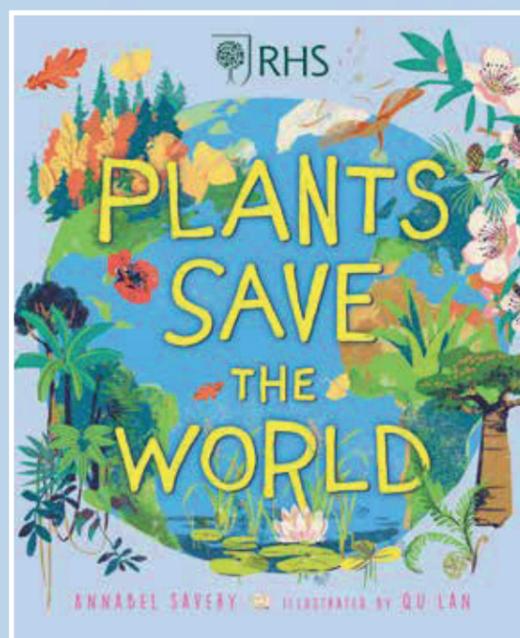

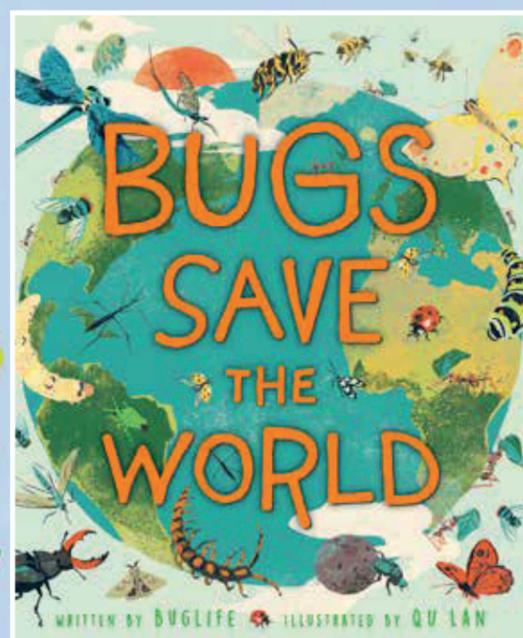

ALSO AVAILABLE

# BUGS SAVE THE WORLD PLANTS SAVE THE WORLD

FIND OUT WHY BUGS AND PLANTS ARE SO IMPORTANT – TO HUMANS, ANIMALS AND THE SURVIVAL OF OUR PLANET.

- Discover bugs and plants in all shapes, sizes and colours, and learn how they can help to save the world
- Covers science topics such as life cycles, food chains, adaptation, ecosystems, deforestation and habitats
- *Bugs Save the World* is written by Buglife, an invertebrate conservation charity and *Plants Save the World* is produced in partnership with experts at the Royal Horticultural Society (RHS)

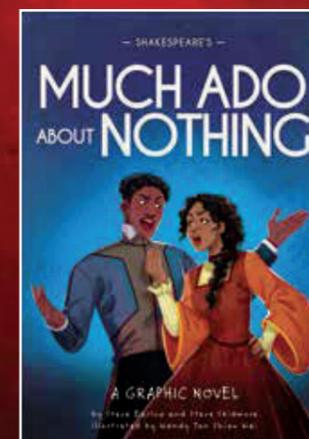

# CLASSICS IN GRAPHICS

Adapted by: Steve Barlow and Steve Skidmore

A series of graphic novel adaptations of some of Shakespeare's most famous plays, which will inspire and enhance a young generation's love of his work.

- Written by the award-winning '2Steves', who are experts in writing books for reluctant, struggling and ESL readers – with over 250 books co-authored
- Both authors are seasoned performers and drama-educators as well, and regularly visit schools around the world
- Engaging graphic illustrations, commissioned with care to suit each play in its own right
- A wealth of introductory and end materials to enhance understanding and satisfy curiosity about the play, the context, the playwright, the language, the history and so much more

# FACT OR FAKE

Sort the truth from the lies with the *Fact or Fake?* series, packed full of unbelievable, mind-boggling facts!

This high-interest series for children aged 9+ separates the facts from the fakes. From inventions and dinosaurs to survival skills and science, each statement is explored and explained to reveal whether it is right or wrong.

- In a world of fake news, this series encourages children to question common myths and research facts to find out what's fact and what's not
- Quirky eye-catching illustration and a two-tone design make this an appealing and unputdownable high-interest leisure read
- Can also be used to support school topics

# I'M GLAD THERE ARE

A series of brightly illustrated non-fiction titles exploring the things we are grateful for in the natural world around us.

- The books encourage children to observe the natural world, and to appreciate and learn about ways to protect it
- Includes simple activities to try
- An ideal first step in discussing environmental issues

# BE AN ECO HERO!

A bright and bold introduction to environmental issues such as pollution, saving energy and recycling.

- The books carefully explain the issues and ways to help, setting children on the path to be life-long eco heroes
- Fun quizzes at the end of the books help children check their learning
- Lisa Koesterke is a German-Australian illustrator with a love for bright colour palettes

# LEARN MATHS WITH MO

If a monster can understand geometry, anyone can!

Join Mo the monster as he discovers the maths all around him - from fractions to polygons - through his experiences and (frequent) mishaps.

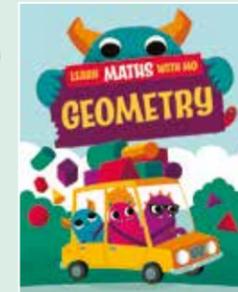

978 1 5263 1894 7

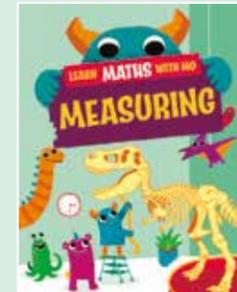

978 1 5263 1899 2

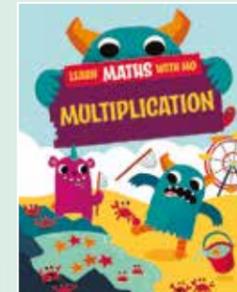

978 1 5263 1901 2

978 1 5263 1902 9

978 1 5263 1905 0

978 1 5263 1906 7

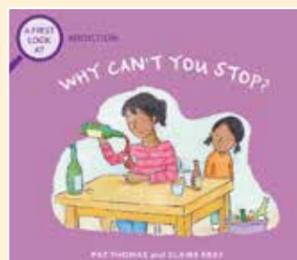

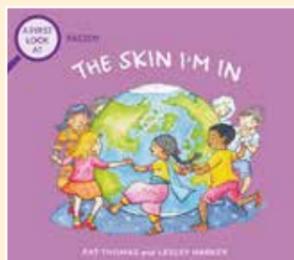

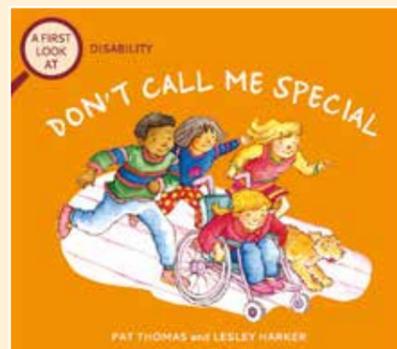

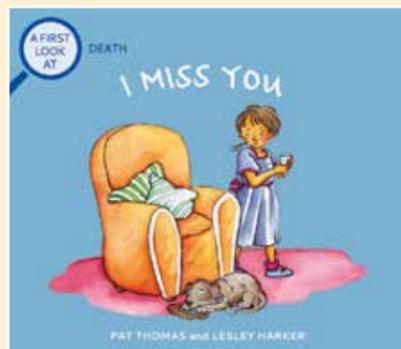

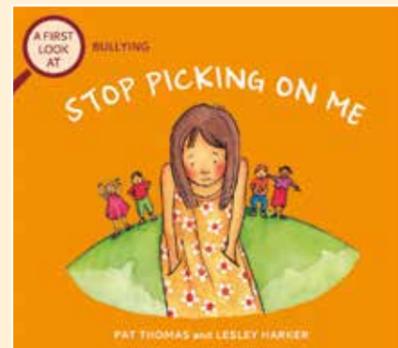

- Each book is set in a child-friendly narrative with a cast of funny monster characters
- The bright, funny illustrations will keep children engaged as they learn
- The authors have taught maths in schools and lectured in maths at university. They are now full-time maths consultants

NOM NOM NOM!

A FIRST  
LOOK  
AT

An essential, accessible picture-book series looking at personal, social and emotional issues.

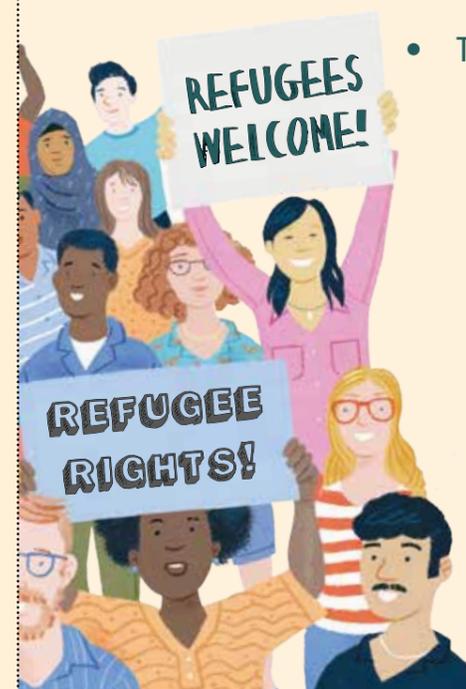

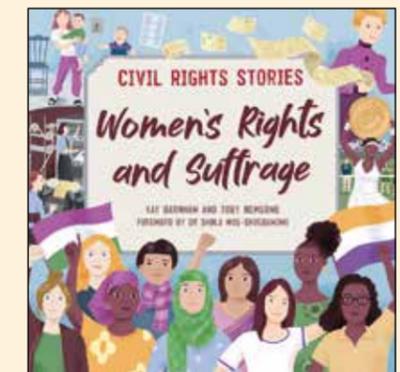

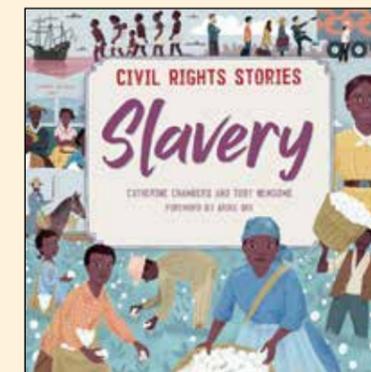

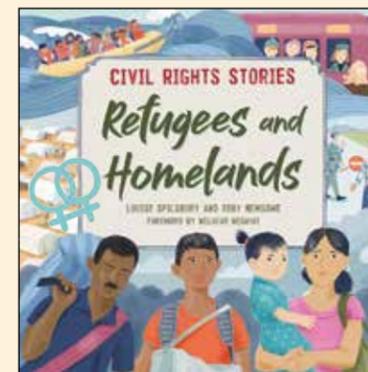

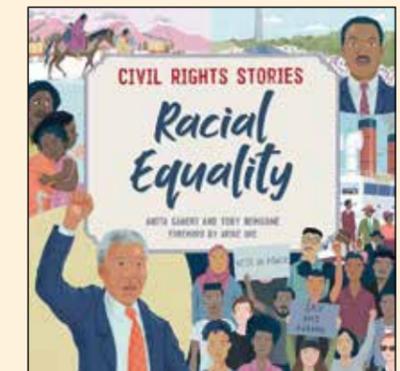

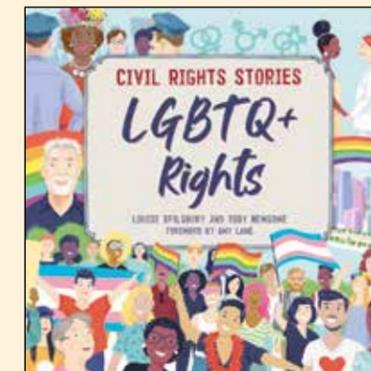

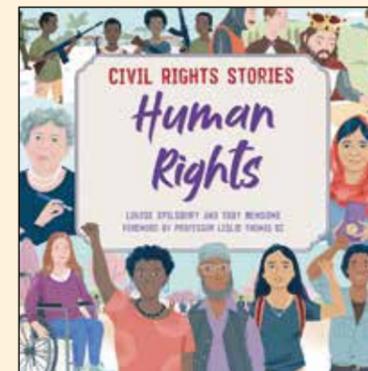

- Written by psychotherapist, journalist and parent, Pat Thomas
- Includes notes for parents and teachers providing valuable advice for how to talk about these issues with young children
- Questions throughout the text enable open communication

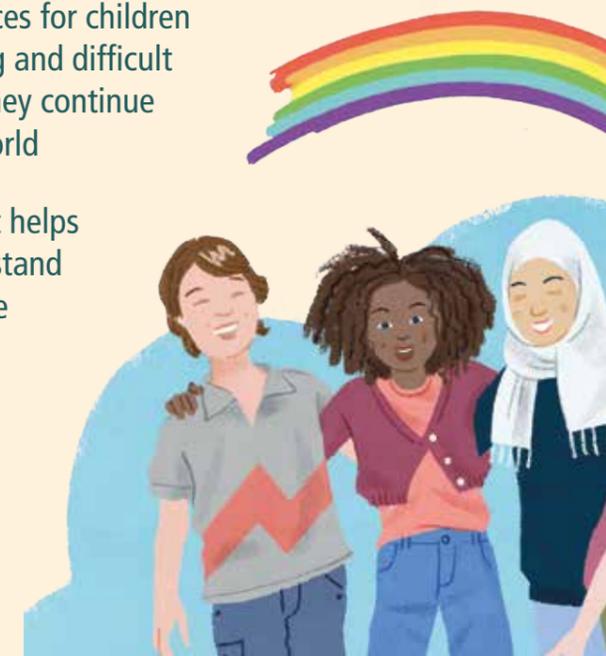

# CIVIL RIGHTS STORIES

A sensitively written and illustrated series of books for young children that looks at key civil rights topics and movements.

- These books are excellent resources for children learning about these challenging and difficult moments in history and how they continue to relate to today's world
- The chronological format helps young readers to understand how civil rights have evolved over time

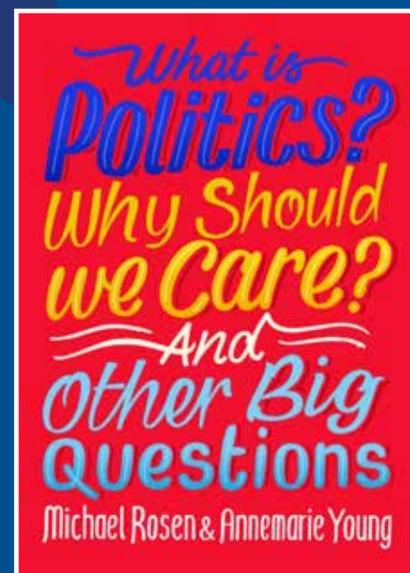

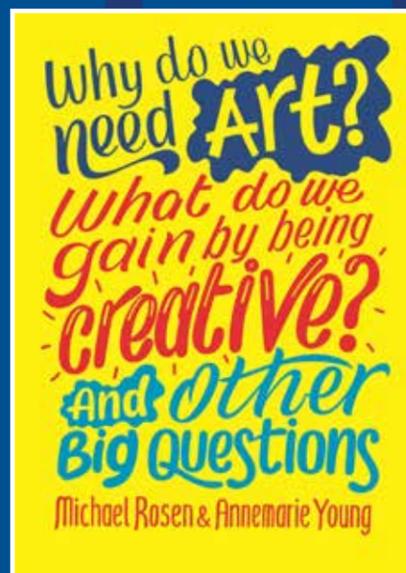

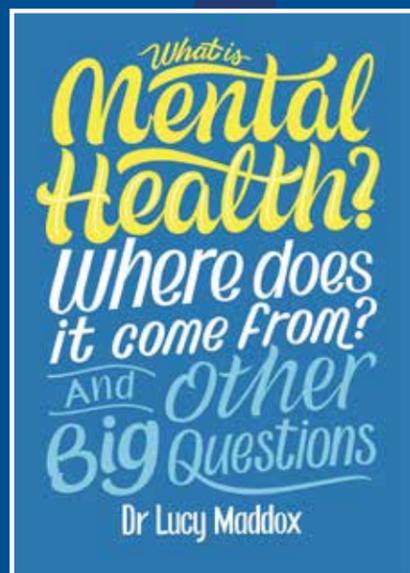

# And Other Big Questions

Part of the groundbreaking and important *And Other Big Questions* series, which offers balanced and considered views on the big issues we face in the world we live in today.

Exploring and explaining politics, art and mental health, in a non-stigmatising, accessible and accurate way

With specially-written contributions from big-name, high-profile authors, experts within their individual fields, psychiatrists, artists and even Olympic gold medallists

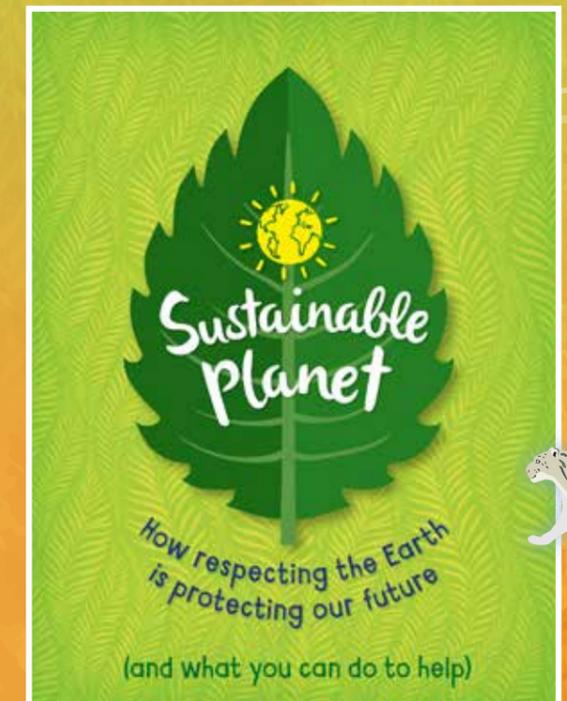

Encouraging readers to think for themselves and make up their own minds about the issues being discussed

# Extinction Planet Sustainable Planet

Take a non-alarmist, but truthful, look at the Earth's extinction and sustainability issues. Full of suggestions on ways we can all live in a more planet-friendly way that will empower young readers. The books include case studies highlighting issues alongside global and individual actions such as carbon offsetting, rewilding and eating less meat and fish.

Following on from *Plastic Planet*, *Hot Planet* and *Recycled Planet*, these new titles feature the same blend of illustrations and photos and are written by the award-winning author Anna Claybourne.

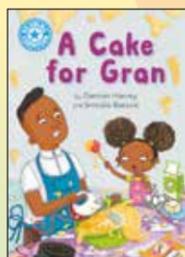

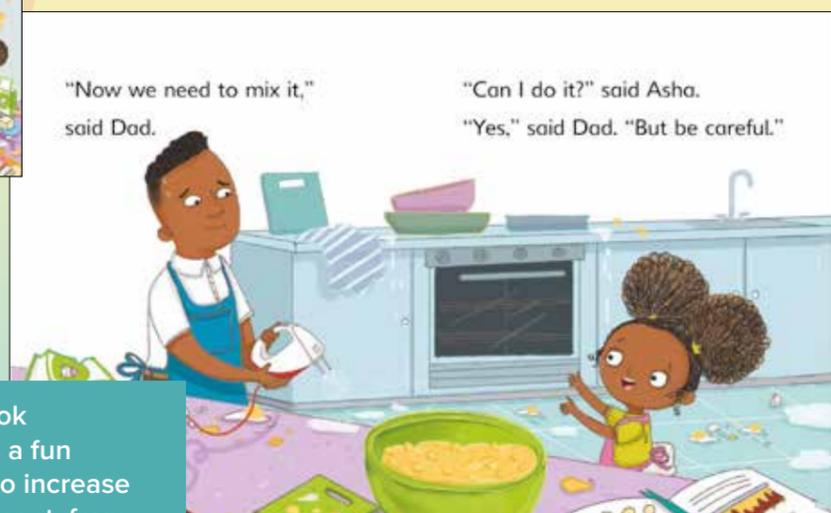

## A primary reading series developed with UCL Institute of Education to help children become confident, independent readers.

- **Modern and diverse stories**  
With fun stories featuring a range of topics, cultures and settings, Reading Champion books will appeal to children of all backgrounds.
- **Carefully linked to book bands to offer the right level of challenge**  
The books have been specifically written for independent reading and are designed to help children practise and embed their developing reading skills.
- **Ideal for schools and libraries, easy to use at home**  
Reading Champion works alongside any guided reading scheme used in the classroom. Notes at the back of each book help parents and carers support reading at home.
- **Encourage reading for pleasure**  
Entertaining stories at the right reading level make these the books that children will want to pick up and read themselves!

Visit [www.reading-champion.co.uk](http://www.reading-champion.co.uk) for free Teacher and Parent guides, resources and downloadable samples

Spread shown from *A Cake for Gran*, Blue 4

**“Now we need to mix it,”**  
ACTUAL SIZE

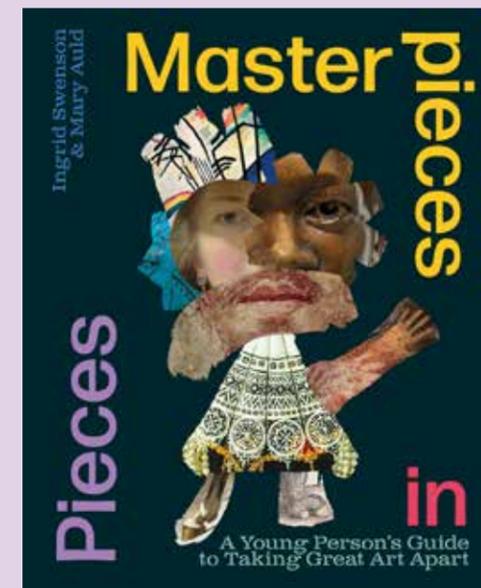

Each book contains a fun activity to increase engagement, from story trails to quizzes and comprehension games

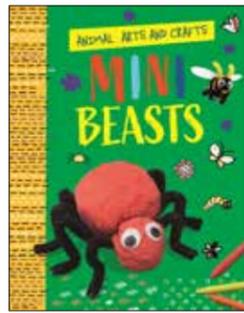

New titles available in 2022, including non-fiction and traditional tales  
Turn to page 31 to see all the new titles

### PUTTING ON A SARI

Many Indian women wear saris, made from long lengths of silk or cotton fabric. For this, they wrap around the waist and over the shoulder. It is worn over a petticoat and a blouse. Putting it on is a special occasion. Here are some instructions:

1. Pin the petticoat and blouse.
2. Pick up the end of the sari and wrap it around your waist to form a full skirt and tuck the edge into the waistband of your petticoat.
3. ... across your chest.
4. ... across your back.

**YOU WILL NEED:**  
**DIY Saris** - a long piece of fabric  
**DIY Petticoat** - a long piece of fabric  
**DIY Blouse** - a long piece of fabric

5. Fold out the middle section of the sari, as shown.
6. Fold the blouse under the sari and the 'sari blouse' is ready. Fold the top of the blouse into your petticoat. The blouse should have the same top as the sari blouse. In the back end of your sari.
7. Check the blouse at the bottom of your sari, and tuck the blouse into your petticoat.

### SPORT AND LEISURE

Cricket is the most popular sport in India. It is very popular and everyone enjoys watching it. The national team is the Indian cricket team. They play Test matches, One Day Internationals (ODIs) and Twenty20 (T20) matches. The Indian cricket team has won the World Cup in 1983 and 2011.

**INDIAN DANCE**  
 There are many different types of Indian dance. Some are performed in temples and some are performed in theatres. They are very beautiful and colorful. Some of the most popular are Bharatanatyam, Kathak, Odissi, and Manipuri.

**DID YOU KNOW?**  
 The Indian national flag has three horizontal stripes of equal width. The top stripe is saffron, the middle is white, and the bottom is green. In the center of the white stripe is a navy blue wheel with 24 spokes, known as the Ashoka Chakra.

### GETTING ABOUT

It is important that India always has the most modern and best transport. This is why the government has invested a lot of money in building roads, bridges, and airports. The Indian Railways is one of the largest railway networks in the world, with around 22,000 km of track and more than 200,000 trains. More than 20 million people travel by rail every day, and passenger trains, especially, are very crowded.

**INDIAN RAILWAYS**  
 India has one of the largest railway networks in the world, with around 22,000 km of track and more than 200,000 trains. More than 20 million people travel by rail every day, and passenger trains, especially, are very crowded.

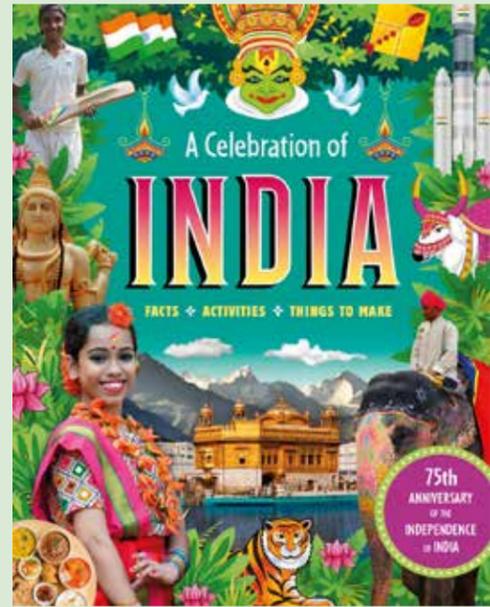

**DID YOU KNOW?**  
 The Indian national flag has three horizontal stripes of equal width. The top stripe is saffron, the middle is white, and the bottom is green. In the center of the white stripe is a navy blue wheel with 24 spokes, known as the Ashoka Chakra.

### HI-TECH INDIA

In recent years, India has become a world leader in science and technology. Its technology companies produce cutting-edge software and IT services that are used all over the world. India is also a major producer of space technology. The Indian Space Research Organisation (ISRO) has launched several satellites and is planning to launch a human space mission in the future.

**DIGITAL INDIA**  
 Many young Indians study science, technology, and engineering. They use their skills to create new products and services. India is also a major producer of space technology. The Indian Space Research Organisation (ISRO) has launched several satellites and is planning to launch a human space mission in the future.

**INDIA INNOVATION**  
 India is a country that has many talented people. They use their skills to create new products and services. India is also a major producer of space technology. The Indian Space Research Organisation (ISRO) has launched several satellites and is planning to launch a human space mission in the future.

### Arctic future

Today, the Arctic Ocean is changing fast. The ice is melting, the sea level is rising, and the weather is getting warmer. This is because of the greenhouse effect. The sun's rays are warming the earth, and the heat is trapped in the atmosphere. This is making the earth warmer and warmer. The Arctic Ocean is one of the most important parts of the world. It is home to many different animals and plants. It is also a very important part of the world's climate system. We need to take care of the Arctic Ocean, so that it can continue to be a beautiful and important part of our world.

**Open Arctic**  
 The ice in the Arctic Ocean is melting. This is because of the greenhouse effect. The sun's rays are warming the earth, and the heat is trapped in the atmosphere. This is making the earth warmer and warmer. The Arctic Ocean is one of the most important parts of the world. It is home to many different animals and plants. It is also a very important part of the world's climate system. We need to take care of the Arctic Ocean, so that it can continue to be a beautiful and important part of our world.

**A warmer world**  
 The world is getting warmer. This is because of the greenhouse effect. The sun's rays are warming the earth, and the heat is trapped in the atmosphere. This is making the earth warmer and warmer. The Arctic Ocean is one of the most important parts of the world. It is home to many different animals and plants. It is also a very important part of the world's climate system. We need to take care of the Arctic Ocean, so that it can continue to be a beautiful and important part of our world.

**Indigenous peoples**  
 The people who live in the Arctic are called indigenous peoples. They have lived in the Arctic for thousands of years. They are very smart and have many different skills. They are also very brave and have many different stories. We should respect their culture and traditions. We should also learn from them, because they have many things that we can learn from.

**The Arctic Council**  
 The Arctic Council is an international organization that works to protect the Arctic region. It has eight member states: Canada, Denmark, Finland, France, Iceland, Norway, Sweden, and the United Kingdom. The Arctic Council also has six observer states: China, Germany, India, Italy, South Korea, and the United States. The Arctic Council's main goal is to promote cooperation and understanding between the Arctic states. It also works to protect the environment and the people who live in the Arctic.

### Exploring the Pacific

The Pacific Ocean is a huge body of water. It is the largest ocean in the world. It covers more than 100 million square kilometers. It is home to many different animals and plants. It is also a very important part of the world's climate system. We need to take care of the Pacific Ocean, so that it can continue to be a beautiful and important part of our world.

**The Polynesians**  
 The Polynesians are a group of people who live in the Pacific Ocean. They are very smart and have many different skills. They are also very brave and have many different stories. We should respect their culture and traditions. We should also learn from them, because they have many things that we can learn from.

**Sea's mysteries**  
 The Pacific Ocean has many mysteries. There are many things that we do not know about it. We need to explore it and learn more about it. We should take care of it, so that we can continue to learn from it.

**Sea and the people**  
 The Pacific Ocean is home to many different people. They have different cultures and traditions. We should respect their culture and traditions. We should also learn from them, because they have many things that we can learn from.

**Into the depths**  
 The Pacific Ocean is a very deep ocean. There are many things that we do not know about it. We need to explore it and learn more about it. We should take care of it, so that we can continue to learn from it.

# A Question of History

This series draws young readers into the fascinating, sometimes gruesome, world of famous peoples and civilisations through history. The lively design is supported by annotated photos and cartoons, making history fun and accessible for readers.

Did Romans really eat flamingos?	9781526315335	10/03/2022
And other questions about the Romans		
Did the kings of Benin keep pet leopards?	9781526315397	10/03/2022
And other questions about the kingdom of Benin		
Did the Celts use hair gel? And other questions about the Stone, Bronze and Iron Ages	9781526315410	12/05/2022
Why did the ancient Greeks ride elephants into battle? And other questions about ancient Greece	9781526315359	12/05/2022
Tim Cooke/Matt Lilly	£8.99	PB Age: 9-11

### Did Celtic warriors really paint themselves blue?

Most people going into battle with enemies carrying swords and spears would put on armour. Or at least their thickest clothes. Not the Celts. According to the Romans, they took their clothes OFF.

**Here's why:**  
Ancient Roman historians left accounts of how Celtic warriors went into battle naked. One said they were worried about their clothes catching on branches as they ran.

**Lead us not unto temptation...**  
Roman general Julius Caesar, who landed in Britain in 55 BC, noted in his diary that the Celts generally wore very little - unless it was really, really cold. He also wrote that the Celts painted themselves blue, possibly using a plant called Woad. No one knows, though, whether the Celts used body painting or tattoos, or the kind of designs they used.

**Proper propaganda**  
The Romans spread stories about the Celts being naked and blue. Why? Because the story reminded people back home that Caesar's armies were much stronger than they were. [www.romeandrome.com](http://www.romeandrome.com)

**Are you naked?**  
We know that some Celts wore chainmail shirts and leather armour, so the stories about fighting naked probably only applied to small groups of warriors who were at war.

**Reasons they were starbuckers and the Romans had armour.**

### Why did Minoans have strong ankles?

To somewhat over charging bulls - obviously! That might seem a strange pastime (not to mention VERY dangerous). For the Minoans of Crete, though, the bull was sacred. Leaping over bulls was a form of worship.

**Minoans and the Minotaur**  
The Minoans were named after King Minos, who was said to be their first king. The royal palace at Knossos was decorated with frescoes of bulls.

**Mystery face**  
At about the same time, mainland Greece was home to the Mycenaeans, who had grown powerful through war and trade.

**The Trojan War**  
Around the 1200s BC, the Greek poet Homer wrote the Iliad, a long poem about a war in which Greek warriors defeated the city of Troy. People thought that story was fiction until the 1870s.

**In which case... who is it?**

# Discover and Do!

Discover and Do! History is the perfect introduction to core history topics for readers aged 7 and up who enjoy getting creative.

Discover and Do! Ancient Egyptians	9781445177540	10/02/2022
Discover and Do! Vikings	9781445177533	10/02/2022
Discover and Do! Romans	9781445177458	10/03/2022
Discover and Do! Tudors	9781445177441	10/03/2022
Discover and Do! Ancient Greeks	9781445177434	14/04/2022
Discover and Do! Anglo-Saxons	9781445177465	14/04/2022

Jane Lacey £8.99 PB Age: 7-9

### THE AFTERLIFE

The Ancient Egyptians believed in life after death. They thought they needed their bodies in the afterlife so they took great care to preserve their bodies. This was done by a process called mummification.

#### Mummification

Mummification was carried out in a workshop. The body was laid out on a table.

- The lungs, stomach, liver and intestines were removed and put in jars.
- The body was covered in natron salt to dry it out.
- The body was wrapped in linen and covered with resin to protect it from insects.

#### ACTIVITY

##### MAKE CANOPIC JARS

You will need:

- Four small glass jars
- paper
- scissors or pencils for drawing
- orange paint
- small pink ballpoint pen
- black marker pen
- any type of coffee filter
- glue stick

**Step 1:** Draw the profile of a head on a piece of paper. Use the template as a guide.

**Step 2:** Cut out the profile and glue it to the jar.

**Step 3:** Use the orange paint to color the face. Use the black marker to draw the eyes and mouth.

**Step 4:** Use the coffee filter to make a beard. Cut it into strips and glue it to the face.

# Vaccinated: The History and Science of Immunisation

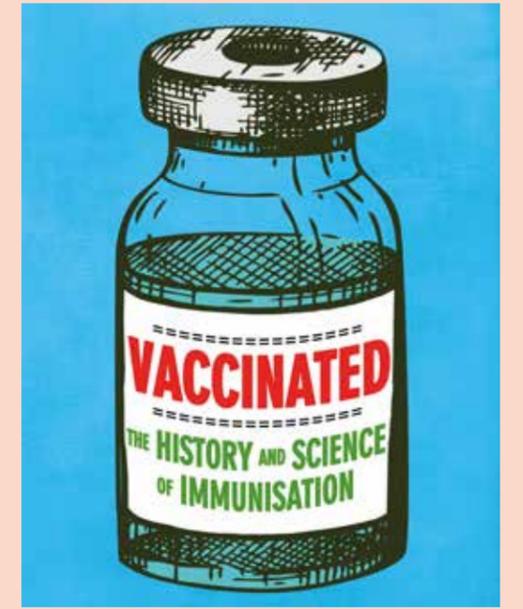

Introduce children aged 9+ to what vaccines are, how scientists first developed them and the science behind germs and the immune system. As well as the history of vaccines, the book looks at the modern science and issues around vaccines today, including the Covid-19 vaccine.

Vaccinated	9781445182889	22/09/2022
Tim Cooke	£8.99	PB Age: 9-11

### HOW DO PEOPLE CREATE A NEW VACCINE?

A new vaccine is the result of years of work by researchers, scientists, doctors and vaccine manufacturers. Let's look at how they do it.

- 1. IDENTIFY THE GERM**  
The first step is to identify the germ that causes the disease. It is often a virus or bacterium. Scientists use microscopes to see the germ and study how it works.
- 2. VACCINE RESEARCH**  
The next step is to work out how to make a vaccine against the germ. Can the germ be weakened or killed? Or can the body be trained to fight it? Scientists study the germ and its parts to find out.
- 3. TEST, TEST, TEST**  
Both animal and human testing is needed. Scientists first test the vaccine on animals to see if it is safe and effective. Then they test it on humans. The vaccine is given to a small group of people first. If it is safe and effective, it is given to a larger group. The vaccine is tested in children, young adults, and older adults.
- 4. AND TEST SOME MORE**  
This is the beginning of the mass production of a vaccine. It is given to thousands of people. Scientists monitor the people to see if the vaccine is safe and effective. If it is, the vaccine is approved for use.

# Real-life Dragons and their Stories of Survival

The fascinating stories of ten real-life dragons, the myths and legends surrounding them, their discoveries and how they survive today.

Real-life Dragons and their Stories of Survival	9781526315427	14/04/2022
Anita Ganeri/Jianan Liu	£12.99	HB Age: 9-11

# Tiny Science

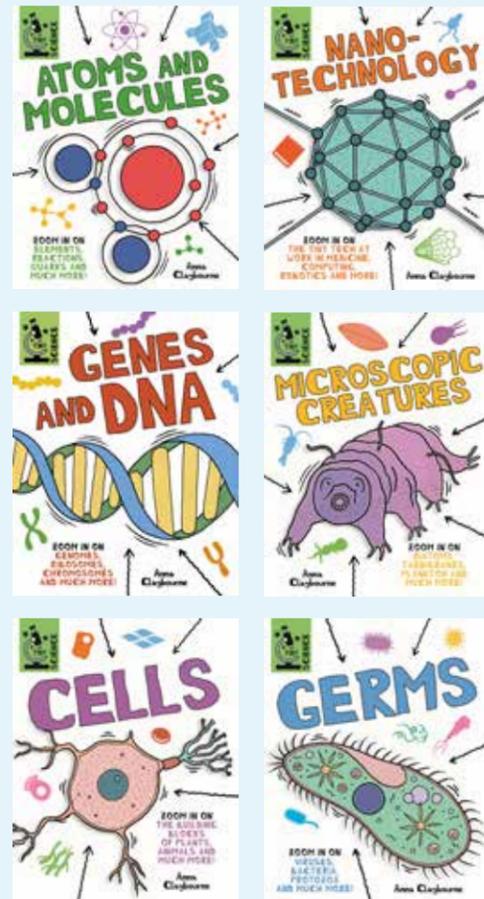

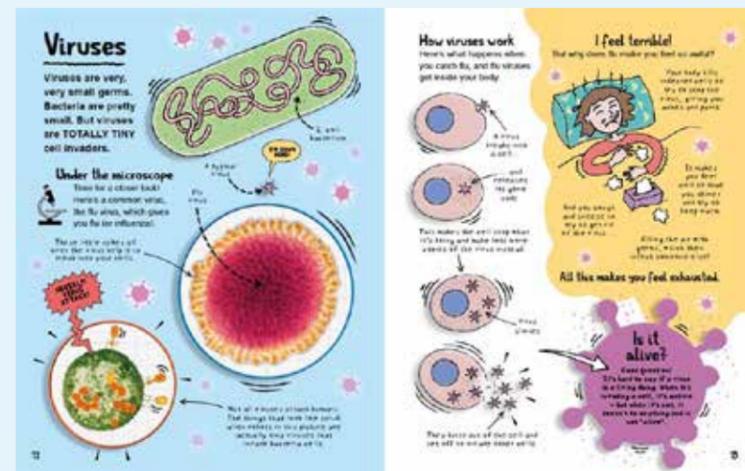

Tiny Science examines the science of things we cannot see with the naked eye, making the 'invisible' easily understandable for children learning about the building blocks of our world.

Tiny Science: Atoms and Molecules	9781526317919	09/06/2022
Tiny Science: Nanotechnology	9781526317933	09/06/2022
Tiny Science: Genes and DNA	9781526317858	14/04/2022
Tiny Science: Microscopic Creatures	9781526317872	14/04/2022
Tiny Science: Cells	9781526317834	10/02/2022
Tiny Science: Germs	9781526317308	10/02/2022

Anna Claybourne/Matt Lilly	£12.99	HB Age: 9-11
----------------------------	--------	--------------

Tiny Science: Cells	9781526317841	10/11/2022
Tiny Science: Germs	9781526317315	10/11/2022

Anna Claybourne/Matt Lilly	£8.99	PB Age: 9-11
----------------------------	-------	--------------

# I See Science

Discover science in action in everyday life with these interactive books full of large and detailed scenes.

I See Science: Living Things	9781526314826	10/03/2022
I See Science: Materials	9781526315007	10/03/2022
I See Science: Forces and Magnets	9781526315038	12/05/2022
I See Science: Light	9781526315021	12/05/2022
I See Science: Sound	9781526315076	14/07/2022
I See Science: States of Matter	9781526315052	14/07/2022

Izzi Howell/Christos Skaltsas	£12.99	HB Age: 5-7
-------------------------------	--------	-------------

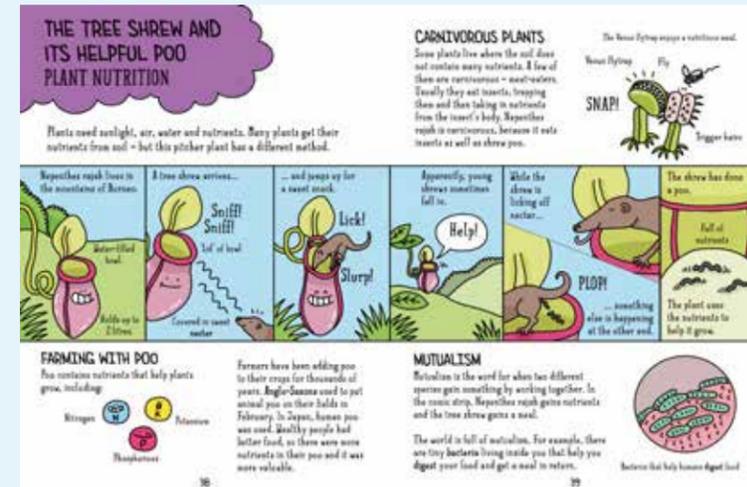

# Comic Strip Science

A hilarious series that combines cartoon strips with factual science information.

Comic Strip Science: Earth and Space	9781526321084	08/12/2022
Comic Strip Science: Biology	9781526319982	11/08/2022

Paul Mason/Jess Bradley	£13.99	HB Age: 7-9
-------------------------	--------	-------------

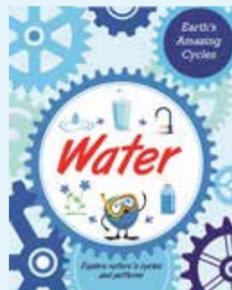

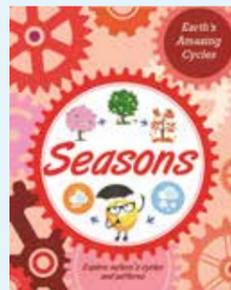

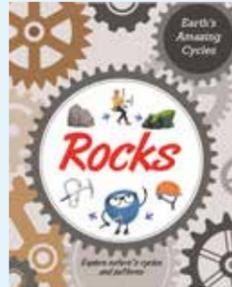

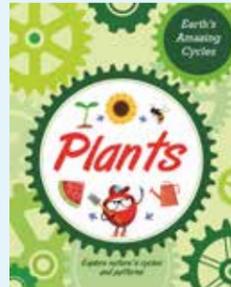

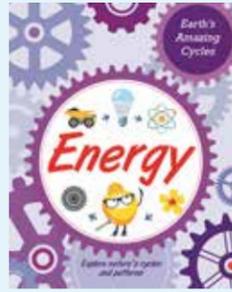

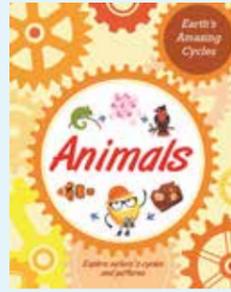

# Earth's Amazing Cycles

Discover nature's cycles and patterns with these vibrant, visual guides.

Earth's Amazing Cycles: Animals	9781445181851	11/08/2022
Earth's Amazing Cycles: Energy	9781445181967	11/08/2022
Earth's Amazing Cycles: Plants	9781445181981	13/10/2022
Earth's Amazing Cycles: Rocks	9781445182001	13/10/2022
Earth's Amazing Cycles: Seasons	9781445182025	08/12/2022
Earth's Amazing Cycles: Water	9781445182049	08/12/2022

Jillian Powell/Sally Morgan £12.99 HB Age: 9-11

# Stupendous and Tremendous Science

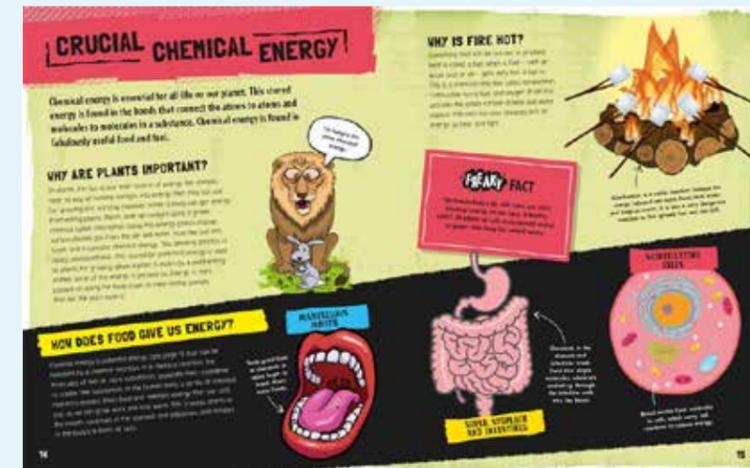

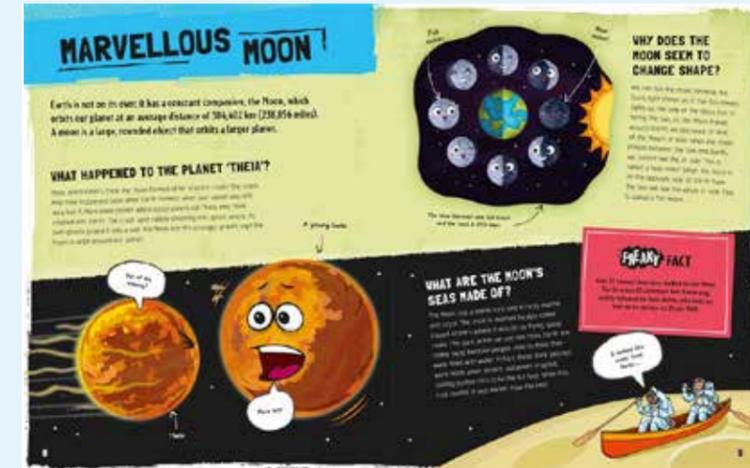

Children can explore core science topics in this entertaining series full of questions, facts, fun photos and illustrations.

Happy (and Healthy) Human Body	9781526315465	13/01/2022
Spectacular (and Soaring) Space	9781526316103	13/01/2022
Ecstatic (and Excellent) Energy	9781526316028	10/02/2022
Powerful (and Pongy) Plants	9781526316073	10/02/2022

Claudia Martin/David Broadbent £12.99 HB Age: 9-11

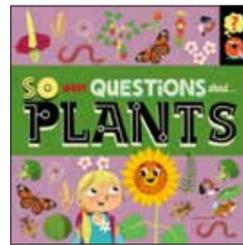

Happy (and Healthy) Human Body	9781526315472	13/10/2022
Spectacular (and Soaring) Space	9781526316233	13/10/2022
Ecstatic (and Excellent) Energy	9781526316158	10/11/2022
Powerful (and Pongy) Plants	9781526316202	10/11/2022

Claudia Martin/David Broadbent £8.99 PB Age: 9-11
